Dear Ekaterina

First of all I would like to thank you your excellent work for the organization of the IHSS congress in your country. It was wonderful and very interesting from all viewpoints. I would like to thank you also your work and time in the service of those scientists interested in humus as well as for the IHSS development in Bulgaria. It is clear that this work is fundamental in order to develop the IHSS service and help for the researchers interested in the world of humic substances and natural organic matter; principally for young scientists trying to develop new working lines, new ideas, and new groups but also for consolidated scientists and groups.

All the best

Josemari Garsia Mina

Vice-President of IHSS

Dear Ekaterina,

Congratulations on completing a fine IHSS conference! People enjoyed the conference, and we accomplished a lot. I spent much of the week networking on several initiatives starting among IHSS members, so it was a very productive meeting. This networking was facilitated by how well organized the conference was. We always had meals and snacks available when needed. Transportation arrangements were flawless. Evening restaurants were close by, as were recreational opportunities. Quite a convenient break from work for me.

And I think many of us gained a memorable introduction to Bulgaria. The two field trips I went on (Varna and Nessebar) provided many new sights, especially Nessebar. A most beautiful city on the Sea. I had long chats with both tour guides.

Thank you again for organizing and hosting a fine conference.

Best wishes,
Prof. Dan Olk
